Joel printed them out just now. So we do not need to re-run the Hwy tests.

Joel didn't have those test results. Okay, if those are valid and you can send me them to me, we can skip re-running HWYs.

Test 945 on 09.08 vehicle 0004 was not listed on the log but is a valid HWFET.

Dave, Joel were reviewing the data and realized we don't have a valid Highway test on these 2 cars. Please add a HWY test in addition to the FTPs.

Thanks, Jim

Dave, I guess you assign a test ID# for this?

A prep and then a FTP test (no fuel drain or fill) for vehicles

W400RXX-0004 , Blue Golf Diesel manual 6 speed. 1<sup>st</sup> priority  
W400RXX-0003 , White Golf Diesel Manual 6speed. 2<sup>nd</sup> priority

I have in my notes shift schedule # 10015.

Jim

It is getting more urgent to run another FTP test on the Blue Golf w/manual trans. Either this week if at all possible or next week before the Correlation vehicle. Perhaps we can discuss possible options at our Thursday morning meeting. Either cold cell or hot cell is fine.
